Definitions of Indicators

Direct International Entries into Canada and Alberta - Source: Statistics Canada, Preliminary Advance Information, International Travel, catalogue 66-001-P

Air Passengers - Source: Calgary Airport Authority and Edmonton International Airport (websites). Data are preliminary estimates of the number of air passengers enplaning and deplaning. Official statistics are available from Statistics Canada about six months after the preliminary estimates are released. Final counts are usually three to five percent less than preliminary estimates.

Highway Traffic - Source: Alberta Infrastructure. These data are monthly totals, based on monthly average daily traffic (average number of vehicles per day multiplied by number of days in month) passing the counter locations and in the direction indicated for a particular month. All vehicles are counted. Year-to-date is a cumulative total for all vehicles.

Accommodation Indices— Source: PKF Consulting Inc., Trends in the Canadian Hotel Industry. Occupancy rates and average daily room rates are based on a sample of hotels for each respective location.

Historic Sites and Museums— Source: Alberta Culture and Community Spirit, Historic Resources Division. Visitor attendance figures are monthly totals based on fifteen historic sites, the Royal Alberta Museum and the Royal Tyrrell Museum of Paleontology and the Tyrrell Field Station.

National Park Attendance—Source: Parks Canada. Attendance is reported as the number of independent visits to National Parks in Alberta. A visit is defined as the entry onto a site by a person engaged in heritage appreciation or recreation activity. Local and commercial are not included. Data are preliminary unless otherwise noted. Tour group data are included in the annual total only.

Employment in the Food and Accommodation Sector— Source: Statistics Canada, Labour Force Survey. The employment figure represents all persons 15 years or older who worked for pay or profit or unpaid work in the food services and accommodation sectors, including businesses or other ventures owned or operated by a related family member(s) during the reference period of the survey.

Food Services and Drinking Places— Source: Statistics Canada, Food Services and Drinking Places, CANSIM table: 355-0006. The monthly survey provides estimates of the value of sales and the number of locations of restaurants, caterers, and drinking places by province and by industry at the North American Industry Classification System (NAICS) four-digit level. Includes total receipts from restaurants, caterers and taverns for chain and independent establishments. The target population includes full-service restaurants, limited service eating places, special food places and drinking places.

Definitions of Indicators

1. Entries into Canada by Country of Residence – Includes all residents of the United States and other countries who enter Canada at a Canada Border Services Agency land port or airport. Starting in January 2010, direct entries into Canada include only those visitors that stayed at least one night in Canada.
Source: Statistics Canada catalogue 66-001(p) International Travel – Advance Information (monthly)

2. Alberta Direct Entries – Alberta direct entries include all residents of the United States and other countries that enter Canada at a Canadian Border Services Agency land port or airport in Alberta and stay at least one night in the province. The direct entry data do not include visitors that enter Alberta indirectly (i.e. enter Canada via another province and then travel into Alberta).
Source: Statistics Canada catalogue 66-001(p) International Travel – Advance Information (monthly)

3. Air Passengers – Numbers are preliminary estimates of the number of air passengers enplaning and deplaning at the Edmonton International and Calgary International Airports.

Source: Edmonton International Airport and Calgary International Airport Websites

4. Highway Traffic: These data are monthly totals. The monthly average daily traffic (average number of vehicles per day) is calculated by dividing the monthly total by the number of days in the month passing the counter locations and in the dierction indicated for a particular month. Automatic Traffic Recorders counts all vehicles by direction. Year-to-date is a cumulative total for all vehicles.
Source: Alberta Transportation's Automatic Traffic Recorders (ATR).

5. Accommodation Indices – Occupancy rates and average daily room rates are based on monthly averages of all reporting hotels, motels and motor hotels in each designated region. Alberta Resorts includes the resort communities of Banff, Lake Louise, Kananaskis, Canmore and Jasper.

6. National Park Attendance -- Attendance is reported as the number of visits to National Parks in Alberta. Data are preliminary unless otherwise noted. Beginning in 2004 the monthly figures for Banff National Park and Jasper National Park reflect independent travellers only, and do not include people travelling as part of a tour group. The tour group data, however, are included in the annual total.

8. Food Services and Drinking Places -- The monthly survey of Food Services and Drinking Places provides estimates of the value of sales and the number of locations of restaurants, caterers, and drinking places by province and by industry at the North American Industry Classification System (NAICS) four-digit level. Includes total receipts from restaurants, caterers and taverns for chain and independent establishments. The target population is the 3 digit NAICS level of 722, which includes: Full-service restaurants, limited service eating places, special food places and drinking places.
